

Introducing Readvolution

We are very excited to participate in this school-wide reading incentive program with the Carolina Hurricanes - Readvolution! This is a partnership supporting student literacy by having students read daily for 20 minutes outside of the school day. Students should read a total of **800** minutes during the 8-week timeframe. Using an online tracking system, students will log their reading daily. If the student meets this goal, they will receive recognition and two free Carolina Hurricanes tickets.
