Nick Rotosky, Principal Torrey Flores, Assistant Principal

Southwest Families,

All Southwest families received a survey today asking for your learning preference for the spring. It is important that Durham Public Schools hear from all of our Pre-K through 5th grade families indicating whether you would like your children to remain in remote learning or return to in-person learning if Senate Bill 37 passes. Our goal is to get feedback from 100% of our families by this Friday, February 19th. You can access the form here: [Spring '21 Learning Preference Form](#).

The safety of students and staff remains our top priority. **If remote learning is working for your child, we encourage you to continue with remote learning for the remainder of this school year.** The more Southwest families that choose remote learning, the easier it will be to manage social distancing in classrooms and remote teaching opportunities. Under Plan A, students will attend school four days per week: Monday, Tuesday, Thursday and Friday. Wellness Wednesday will remain with asynchronous activities. Students who remain in remote learning will still receive instruction from Southwest teachers.

Thank you for your commitment to safety and student learning and your continued support of Southwest Elementary. If you have any questions, reach out to me at nicholas_rotosky-III@dpsnc.net. Together, we can make this year a success for everyone.

Nick Rotosky
Principal
