

COVID SURVEILLANCE TESTING PROCESS

A "Pool Positive" test result means someone in the pool of six individuals is positive for COVID-19.

POSITIVE POOL TEST RESULT

WEEKLY POOLED TESTS

MAKO Medical staff will conduct weekly pooled COVID testing on all students and staff registered to participate.

NEGATIVE POOL TEST RESULT DAY 1 : | DAY 2

Should a student or staff member receive a "Pool Positive" test result, they should return to school the next day and plan to have a second, individual COVID test.

INDIVIDUAL TEST

> When a student or staff member tests positive for COVID-19, they will be required to isolate for 10

days and contact tracing

will begin immediately.
