ARE
BETTER
TOGETHER**

#WeAreDPS

Cultivating an environment for learning and achievement goes beyond the classroom. Family Academy serves as the heart of district-wide family engagement. We support families and schools with advocacy, academic and social-emotional learning that supports our students' success in school. We believe it is important to engage every family and all children with distinct, meaningful and thoughtful programs that link families to learning.

Family Academy has developed a series of on-demand videos in English and Spanish for DPS families on a variety of topics. Check out our newly designed Family Academy web page, Facebook page, and catalog of tuition-free virtual classes developed by DPS educators, parents and community partners.

For additional information about Family Academy or how to connect your parents to meaningful engagement experiences, please contact Family Academy at Family_Academy@dpsnc.net.
