### ADDENDUM 1 – Questions and Answers

**Q1. One of the requirements is office accessibility. Our team is actively looking for a location in the Durham area that is accessible to families of all income, however we were hoping our services can begin in the school as a co-located service until that transition? Beginning as a co-located service will allow LEAP to be accessible to students, families and school staff and build a relationship within the community before expanding**

**A1. Our team will review your agency's proposal if submitted to determine if eligibility will be considered despite the limited office accessibility.**

**Q2. Secondly, the proposal requested 3 years of audited financial records. LEAP has been in the developmental stage since last summer to ensure we are launching an evident-based and effective service to our community; therefore, LEAP doesn't have a 3-year financial statement. We are curious if a budget is appropriate?**

**A2. Our team will review your agency's proposal if submitted to determine if eligibility will be considered. Please submit all financial and budgeting documents that can be provided to help our team determine consideration for our program.**
