Please Read the Following Form Carefully

**Authorization For Release of Protected Health Information For Athletic Participating
In Durham Public Schools Athletics Program**

Once properly signed, this authorization will allow for the release of protected health information to the Durham Public Schools Systems (DPS) by physicians and health care providers (Providers) rendering services to DPS athletes. The purpose of the release of the protected health information is to allow the DPS Athletic Program to determine the advisability of an athlete's participation in DPS athletics. An example would be the release of a screening physical examination.

By signing this Authorization for my son, daughter or other person for whom I have legal authority to act (hereinafter referred to as "Athlete"), I hereby authorize health care providers (including, but not limited to, the Duke University Sports Medicine Program and its physicians and providers) that are contracted with DPS to release to each other and to the DPS oral and written medical information relating to the Athlete's medical or physical condition, illness or injury that may have a bearing upon past, present, or future participation in athletics of DPS Athletic Program. The medical information should be used by the DPS Athletic Program for the purpose of determining the advisability of the Athlete's participation in DPS athletics.

This authorization is expressly bound by all the following conditions:

This Authorization will automatically expire upon the Athlete's termination of participation or ineligibility in DPS Athletics, except to the extent relied upon for disclosures made prior to the automatic expiration.

This Authorization may be revoked at any time, provided the revocation *is a properly executed written document and delivered to the Director of Athletics for Durham Public Schools*. As soon as practicable, DPS shall inform each contracted health care provider prior of each Athlete's revocation. However, any such revocation shall not affect disclosures made by a health care provider prior to that health care provider's receipt of the revocation for DPS. In addition, such revocation shall not affect disclosures made prior to the receipt of the revocation to the extent that this Authorization was relied upon for such affect disclosures made prior to the receipt of the revocation to the extent that this Authorization was relied upon for such disclosures.

This Authorization is not intended to alter the Athlete's ability to receive medical care from any health care provider regardless of whether this Authorization is agreed to or refused.

This Authorization shall cover actions by and for Duke University, Duke University Health System, Inc. and Private Diagnostic Clinic, PLLC, and all of their respective employees, workforce, and business associates, and all other physicians and health care providers contracted with DPS and their respective employees, workforce, and business associates. For a complete list of contracted health care providers for DPS that may release medical information pursuant to the Authorization, please contact Durham Public Schools.

The athlete and Parent/Guardian will receive a complete copy of the signed Authorization.

A copy of this Authorization and any revocation of it will be kept by both the Duke Sports Medicine Office, Durham Public Schools and other health care providers contracted with Durham Public Schools.

Protected health information released by the health care providers to Durham Public Schools is not protected by this Authorization from re-disclosure by Durham Public Schools.

Gfeller-Waller NCHSAA Student-Athlete & Parent/Legal Custodian Concussion Information Sheet

What is a concussion? A concussion is an injury to the brain caused by a direct or indirect blow to the head. It results in your brain not working as it should. It may or may not cause you to black out or pass out. It can happen to you from a fall, a hit to the head, or a hit to the body that causes your head and your brain to move quickly back and forth.

How do I know if I have a concussion? There are many signs and symptoms that you may have following a concussion. A concussion can affect your thinking, the way your body feels, your mood, or your sleep. Here is what to look for:

Thinking/Remembering	Physical	Emotional/Mood	Sleep
Difficulty thinking clearly	Headache	Irritability-things bother you more easily	Sleeping more than usual
Taking longer to figure things out	Fuzzy or blurry vision	Sadness	Sleeping less than usual
Difficulty concentrating	Feeling sick to your stomach/queasy	Being more moody	Trouble falling asleep
Difficulty remembering new information	Vomiting/throwing up	Feeling nervous or worried	Feeling tired
	Dizziness	Crying more	
	Balance problems		
	Sensitivity to noise or light		

Table is adapted from the Centers for Disease Control and Prevention (<http://www.cdc.gov/concussion/>)

What should I do if I think I have a concussion? If you are having any of the signs or symptoms listed above, you should tell your parents, coach, athletic trainer or school nurse so they can get you the help you need. If a parent notices these symptoms, they should inform the school nurse or athletic trainer.

When should I be particularly concerned? If you have a headache that gets worse over time, you are unable to control your body, you throw up repeatedly or feel more and more sick to your stomach, or your words are coming out funny/slurred, you should let an adult like your parent or coach or teacher know right away, so they can get you the help you need before things get any worse.

What are some of the problems that may affect me after a concussion? You may have trouble in some of your classes at school or even with activities at home. If you continue to play or return to play too early with a concussion, you may have long term trouble remembering things or paying attention, headaches may last a long time, or personality changes can occur. Once you have a concussion, you are more likely to have another concussion.

How do I know when it's ok to return to physical activity and my sport after a concussion? After telling your coach, your parents, and any medical personnel around that you think you have a concussion, you will probably be seen by a doctor trained in helping people with concussions. Your school and your parents can help you decide who is best to treat you and help to make the decision on when you should return to activity/play or practice. Your school will have a policy in place for how to treat concussions. You should not return to play or practice on the same day as your suspected concussion.

You should not have any symptoms at rest or during/after activity when you return to play, as this is a sign your brain has not recovered from the injury.

This information is provided to you by the UNC Matthew Gfeller Sport-Related TBI Research Center, North Carolina Medical Society, North Carolina Athletic Trainers' Association, Brain Injury Association of North Carolina, North Carolina Neuropsychological Society, and North Carolina High School Athletic Association.

Gfeller-Waller NCHSAA Student-Athlete & Parent/Legal Custodian Concussion Statement Form

Instructions: The student athlete and his/her parent or legal custodian, must initial beside each statement acknowledging that they have read and understand the corresponding statement. The student-athlete should initial in the left column and the parent or legal custodian should initial in the right column. Some statements are applicable only to the student-athlete and should only be initialed by the student-athlete. This form must be completed for each student-athlete, even if there are multiple student-athletes in the household.

	A concussion is a brain injury, which should be reported to my parents, my coach(es), or a medical professional if one is available.	
	A concussion cannot be "seen." Some symptoms might be present right away. Other symptoms can show up hours or days after an injury.	
	I will tell my parents, my coach, and/or a medical professional about my injuries and illnesses.	Not Applicable
	If I think a teammate has a concussion, I should tell my coach(es), parents, or medical professional about the concussion.	Not Applicable
	I, or my child, will not return to play in a game or practice if a hit to my, or my child's, head or body causes any concussion-related symptoms.	
	I, or my child, will need written permission from a medical professional trained in concussion management to return to play or practice after a concussion.	
	Based on the latest data, most concussions take days or weeks to get better. A concussion may not go away right away. I realize that resolution from this injury is a process and may require more than one medical evaluation.	
	I realize that ER/Urgent Care physicians will not provide clearance if seen right away after the injury.	
	After a concussion, the brain needs time to heal. I understand that I am/my child is much more likely to have another concussion or more serious brain injury if return to play or practice occurs before concussion symptoms go away.	
	Sometimes, repeat concussions can cause serious and long-lasting problems.	
	I have read the concussion symptoms listed on the Student-Athlete/ Parent Legal Custodian Concussion Information Sheet.	
	I have asked an adult and/or medical professional to explain any information contained in the Student-Athlete & Parent Concussion Statement Form or Information Sheet that I do not understand.	

By signing below, we agree that we have read and understand the information contained in the Student-Athlete & Parent/Legal Custodian Concussion Statement Form, and have initialed appropriately beside each statement.

Student Athlete Pledge

As a student athlete, I am a role model. Using inappropriate language; taunting; baiting; or the use of unwarranted physical contact directed at opposing players, coaches, and fans are contrary to the spirit of fair play and the good sportsmanship my school, my conference, and the NCHSAA expects of its members.

I accept my responsibility to model good sportsmanship that comes with being a student athlete.
